Methodology & Scope

This audit was performed with the open-source axe-core engine (WCAG 2.1/2.2 A and AA rule sets) on the pages listed above, as rendered at audit time. Automated testing reliably detects an estimated 30-50% of WCAG success criteria failures. This report is audit evidence of identified issues and remediation effort; it is not a certification of legal compliance, and a manual expert review is recommended for full coverage.

Engine: axe-core v4.12.1 · Standards: WCAG 2.1/2.2 (A/AA) → EN 301 549 · Pages in scope: 5 · Report generated: 15 June 2026
